

# Aluminium

Sharing a vision.

08 – 10 October 2024  
Exhibition Center Düsseldorf, Germany

## PRIMARY PAVILION.

The Pavilion covers the following topics: Manufacturing processes of primary aluminium.

**Present your company, products and innovations in a dedicated space with your industry peers.**

**A must for exhibitors operating in the primary aluminium industry.**

- Technologies for alumina and aluminium production, such as filtering and conveying equipment, sedimentation tanks, disc filters, calcination furnaces
- Equipment for alumina transport and storage in alumina silos as well as electrolysis technologies, distribution and feeding equipment for aluminium electrolysis cells
- Processes for anode production, e.g. grinding plants, mixers, coolers, compactors, vibrators and anode recycling systems

# PRIMARY PAVILION.

Your  
added value.
